HASC O&I

Recommendation from the study:

"The Secretary of Defense, the CJCS, the Service Chiefs, and the Joint Staff should develop remedies for the shortcomings identified by the Fenty and CNA studies that targeted education, training, and modifications to relevant personnel processes. Officers should complete appropriate education before they are assigned to a joint or senior service staff."

JS Comment: Training (Individual) is considered an integral element of Joint Learning; JPME content alone should not satisfy all joint learning requirements A CJCS policy on Joint Individual Training would codify mapping skills to billets
